## **Reapplication of Time Prophecies**

The reapplication of time prophecies that were recognized as already fulfilled and were clearly understood in the past by the pioneers of Adventism has been sweeping Adventism for several years now. Sadly few take the time to research the inspired writings to find that this is clearly called fanaticism by the Spirit of Prophecy. It is one of the main fanaticisms that Sister White had to deal with in Adventism in the time right after the Great Disappointment and she foretold that it would be one of the serious fanaticisms that would sweep through God's people in the end of time.

There is a fascination that is satanic in the presentations of people that are doing this and Satan's purpose is to create an excitement and distraction that is opposed to the serious work of humbling the heart before God and preparing a character to stand in the Sunday Law Crisis which is our final test. Friends, probation closes for Adventists at the Sunday Law and right now we are preparing a character to either receive the Seal of God at that time OR the Mark of the Beast--and there will be no second chance!

Character is not formed in a crisis--it is only revealed! The 'little' daily choices that you and I are making right now are deciding our destiny and we don't need this fanatical excitement to distract us from the solemn work.

The people doing these things we are told are not 'bad people' they may also teach some correct things BUT they are unwittingly being used of Satan to bring in fanatical excitement and they will be responsible for the blood of many souls. Satan is pulling out all the stops--he started over a century ago to bring in error into Adventist understanding of the prophecy so that the TRUE message of Present Truth--based on the SAME message that swept through the world in 1840-1844 will be hidden, garbled and discarded.

Satan wants all of Adventism blotted from the earth and these fanatical time-setters are among those helping his cause greatly. It is through a correct understanding of prophecy based on the foundation of 1840-1844 that we are told a true and mighty revival will come into God's sleeping people--and Satan must prevent that somehow from happening!

Those of us who have taken the time to study out and understand the real Present Truth message for this hour in prophecy--building on the foundation that was laid and returning to the 'old paths' as the Spirit of Prophecy and Scriptures point out--have and are experiencing that power of revival and reformation that comes into the life through these things. It is real--it is solid ground for the feet-BUT there are many winds of false doctrine distracting people from the solid truth laid down by the pioneers and backed by the Holy Spirit through the Spirit of Prophecy.

We have here two articles that carefully reveal the errors of the fanaticism of re-application of the time prophecies and we urge all to read them prayerfully and turn away from promoting Satan's prophetic program either through reading and listening--or worse yet--presenting these heresies.
