

Sin not so sinful; we kinda like it.

Where would we be without television, music, and the movies!! Maybe the Lord would have come by now had his people not been sitting in front of the TV. The 3 Angels are calling us out of Babylon and warning us of the judgment to come, telling us to give Glory to God by keeping all His commandments and to have the character of Christ. Television, music and movies violate every principle and commandment in the word of God.

Wonder how the world, including the majority of SDA's will with the "whole world wonder" after this scarlet covered beast? Easy. Once upon a time before the movies, television and the blasting out of hideous music on the radio there were probably a lot more people with "higher standards" (sin was hidden in the closet because there was still some SHAME)...but then the devil invented the aforementioned entertainments, and even SDA's allowed this in their homes. Little bit by little bit we became accustomed to murder, adultery, sex, swear words, immodest dress, out of wedlock babies, spiritualism, and the breaking of every one of the Ten Commandments-and now what we should blush at and have shame at- we now laugh with and enjoy. **Sin is not so sinful** anymore and that is why the "whole world" will wonder after the beast.

The Whole World has been made aware of the abuse by the priests and still not many care. A Sunday law is right around the corner and those of us who love movies, television and worldly music will accept the Mark of the Beast, just like the whole world does- because we have lost our spiritual discernment by loving what the world loves: entertainment. The devil enters and "tainments" us.
